

**KLE College of Pharmacy  
Vidyanagar, Hubballi**

## **7.1. Institutional Values and Social Responsibilities**

7.1.1 Measures initiated by the institution for the promotion of gender equity during the last five years.

Gender equity mainly refers to fairness of treatment for women and men as per their respective needs. KLE College of Pharmacy Hubli leads by example being fair and unbiased in gender equity policies and their implementation from admissions, to academics, administrative staff as well as teaching staff. We strongly believe that Women are better managers with multi-tasking being their forte. We take pride in sharing that the number of girl students out numbers the number boy students in our institution.

The teaching, technical and administrative staffs also have a good representation of women employees. To safe-guard the well-being of the women employees and girl students we have well placed CCTV surveillance at strategic points in the college premises. For their convenience every floor of the college has separate Ladies Washroom along with a Ladies Room at their disposal for their usage to rest during illness, have lunch etc. The helpline numbers of senior Ladies Staff is at display and disposal for their need and emergency.

The Women Empowerment Cell is strong and going active inviting prominent and elite women of substance from the city of Hubli and Dharwad to inspire our young talented girls and imbibe in them moral values and skills. We have had with us women sports persons, leading gynecologists, physicians, beauticians, music artists to give inspirational speeches.

Along with an proactive Women Empowerment Cell we also have A Students Grievance Redressal Cell for both girls and boys students as well as for female staff, headed by a female staff for giving comfort and making it more approachable to the students.
